Job objective & carrier goals

- A position as an intern in a reputable IT company is sought. Knowledge about computers is to be utilized in assisting with new projects. Further learning is desired while working. Skills in building websites and mobile apps are to be acquired. Knowledge about audio and video post-production, animation, and AI is to be gained. The ability to work well within a team can be demonstrated. New challenges are ready to be taken on.
- Reaching a high position in the Information Technology field is considered as my ultimate goal. For that, experience in various IT projects needs to be gained, the latest technologies need to be learned, and the necessary qualifications need to be obtained.

Education

- University of Vocational Technology – Undergraduate Degree Program – BTec Multimedia & Web Technology at University of Vocational Technology, Ratmalana.
